Letter from the Chair and the President

Dear Colleagues:

2011-2012 was another year of accomplishment for the Council for Higher Education Accreditation (CHEA) in areas ranging from government affairs to recognition of accrediting organizations to a growing international presence. In all of these activities, CHEA served as a strong advocate for higher education accreditation.

Each year, CHEA's advocacy takes the form of meetings with Congress and the Administration, letters and formal comments to the federal and state governments, speeches and presentations across the United States and around the world, publications, videos and information on the CHEA Website and an increasing presence on social media such as Facebook and Twitter. CHEA provides a strong and consistent voice, making the case for accreditation's value to society.

CHEA's 3,000 member institutions support us both through their dues and their active involvement in the organization. This support continues to grow. Last year, 223 colleges and universities across the country either joined CHEA for the first time or returned after not being members in 2010-2011. CHEA's 2012 Annual Conference was our best-attended meeting ever. And, numerous CHEA member institutions participated in activities such as the *CHEA Initiative's* online survey regarding the issues of greatest importance for accreditation.

Member institutions also amplify CHEA's voice on accreditation and its value by posting CHEA publications and videos on their Websites, ensuring that more students, parents and others have access to information on accreditation and its value.

Please take a few minutes to read this year's annual report and learn more about what CHEA, with our members, accomplished in 2011-2012.

2011-2012: Addressing the Challenges, Preparing for the Future

In 2011-2012, CHEA activities ranged from the work accomplished during the final year of the *CHEA Initiative*, government affairs work with Congress and the Administration to recognition of accrediting organizations. CHEA also continued to serve as “Accreditation Central,” an outstanding source of national-level information on accreditation, as well as expanded the organization’s international engagement. The result was a year of significant accomplishment for CHEA on behalf of its 3,000 member colleges and universities.

The *CHEA Initiative*

2011-2012 was the final year of the *CHEA Initiative*, an unprecedented national conversation engaging 2,500 colleagues around the country on the future of accreditation. The *Initiative* was launched by CHEA in 2008 to build consensus for action on the issues of greatest importance to the accreditation and higher education communities in advance of the anticipated reauthorization of the Higher Education Act (HEA) in 2013 or thereafter.

Deliberation by the *CHEA Initiative’s* participants resulted in near unanimity about the two goals of the *Initiative*: the need to further enhance accountability within accreditation and to work to sustain an appropriate balance in the accreditation-federal government relationship. Based on the results of the *CHEA Initiative*, the CHEA Board of Directors approved actions addressing the major issues that emerged in the discussions as most important to participants. These included restating and reframing the division of responsibilities between government and accreditation, initiating an accreditation advocacy campaign and developing a CHEA International Quality Group (see below).

During this period, the *CHEA Initiative* hosted five CEO/CAO Roundtables with member institutions, met with 22 accrediting commissions, held eight National Accreditation Fora and conducted a student focus group for a total of 36 meetings.

Government Affairs

Through its government affairs activities at the U.S. Department of Education (USDE) and the U.S. Congress, as well as with state legislatures, CHEA works to address legislative and regulatory issues of key importance to higher education accreditation.

A major focus in 2011-2012 was the review and [report](#) outlining accreditation policy recommendations carried out by the National Advisory Committee on Institutional Quality and Integrity (NACIQI), USDE’s advisory body on recognition of accrediting organizations. This report was requested by USDE Secretary Arne Duncan to examine “what is working and not working” in the current system of recognition and accreditation. CHEA President Judith Eaton [testified](#) at the committee’s December 15, 2011 meeting to discuss the draft policy report. CHEA also provided [comments](#) to NACIQI and coordinated two letters from the accreditation community, submitted on [November 23, 2011](#) and on [March 16, 2012](#).

CHEA played a role in developing [H.R. 2117](#), a bill passed by the U.S. House of Representatives on February 28, 2012 to repeal USDE’s regulations that establish a federal

definition of credit hour. CHEA made the case that defining the credit hour is the primary responsibility of the academy, not government. The bill also repealed new requirements for state authorization, which CHEA opposed as burdensome and unworkable. Additionally, CHEA supported a companion bill in the U.S. Senate, [S. 1297](#). The House bill was passed and the Senate bill remained in committee as of June 30, 2012.

CHEA also continued to support legislation to combat degree mills and accreditation mills and to reduce and prevent the sale and use of fraudulent degrees in order to protect the integrity of valid higher education degrees. While [H.R. 1758](#), (the “Diploma and Accreditation Integrity Act”) was not passed in 2011-2012, CHEA shared the bill with governors and attorneys general in various states as an example of effective legislation addressing degree mills and making their operation more difficult.

International Activities

CHEA President Judith Eaton participated in a number of international meetings and conferences throughout 2011-2012, including addressing a conference in Erbil, Iraq, hosted by the International Institute of Education, in conjunction with the Iraqi Scholar Rescue Fund and the Center for International Partnerships in Higher Education, on standards in quality assurance and accreditation and served as keynote speaker at the annual conference of the Alliance of Universities for Democracy held in Dubrovnik, Croatia. Eaton also served as a member of the Quality Assurance Council of the University Grants Committee in Hong Kong.

As part of its ongoing international activity, CHEA also provided information on U.S. accreditation to delegations from nations around the world. In 2011-2012, CHEA staff made presentations on U.S. accreditation and recognition to international visitors from countries including Afghanistan, China, Finland, Iraq, Japan, Kenya, Nicaragua, Saudi Arabia and Trinidad and Tobago.

Attendees at the CHEA 2012 International Seminar network at the opening reception.

[The CHEA 2012 International Seminar](#), held January 26-27, in conjunction with the CHEA 2012 Annual Conference, drew participants from 28 countries and addressed issues related to international quality assurance and the role of accreditation.

During 2011-2012, the CHEA Board of Directors approved the establishment of a CHEA International Quality Group (CIQG) to bring together people, ideas and resources from around the world to support institutions and accrediting or quality assurance organizations in tackling tough issues such as defining quality, addressing rankings and combating degree mills and accreditation mills. The CIQG will be launched in 2012-2013.

CHEA Recognition of Accrediting Organizations

CHEA has been engaged in recognition of accrediting organizations since 1999. This review involves scrutiny of their activities to determine whether accreditors meet standards in CHEA’s recognition policy. CHEA-recognized accrediting organizations undergo a review every ten years, at a minimum.

During 2011-2012, the CHEA Committee on Recognition conducted 11 reviews of accrediting organizations seeking eligibility for CHEA recognition and 16 reviews of organizations seeking recognition. The committee also acted to defer recognition of five accrediting organizations and received seven special reports. In all, 31 accrediting organizations came before the committee during the year, some of these on more than one occasion. Some of these accrediting organizations were seeking [CHEA recognition](#) for the first time; others previously have been recognized by CHEA.

CHEA continued to expand information on accreditation that is readily available and accessible to the public, placing summaries of recognition decisions and the reasons for those decisions on the CHEA Website and distributing this information by email.

CHEA Conferences and Meetings

Each year, CHEA conferences and meetings bring together hundreds of participants from across the United States and around the world to hear speakers, discuss ideas and exchange information on vital issues for higher education accreditation and international quality assurance.

The [CHEA 2012 Annual Conference](#), held January 23-26 in Washington, DC, featured speakers from government, higher education institutions and accrediting organizations, including Under Secretary of Education Martha Kanter and a panel composed of NACIQI Chair Jamiemme Studley and NACIQI members Susan Phillips and Cameron Staples. The annual conference also included the eighth and final National Accreditation Forum that has been part of the work of the *CHEA Initiative*.

The CHEA 2012 Summer Workshop was held June 21-22 in Washington, DC. Participants heard remarks from speakers representing colleges, universities, accrediting organizations and government, including Assistant Secretary of Education Eduardo Ochoa and Joshua Kim, Director of Learning and Technology at Dartmouth College's Master of Health Care Delivery Science Programs addressing the emerging issue of Massive Open Online Courses.

Cameron Staples, Member of the National Advisory Committee on Institutional Quality and Integrity (NACIQI), Jamiemme Studley, Chair of NACIQI, and Susan Phillips, Chair of NACIQI's Accreditation Policy Subcommittee, participated in a plenary session at the CHEA 2012 Annual Conference.

The CHEA Award

The *CHEA Award for Outstanding Institutional Practice in Student Learning Outcomes* annually recognizes institutions and programs for their outstanding practice in gathering information on student learning outcomes and using this information for institutional improvement. This information is then provided to the public to help other institutions and programs seeking to make gains in this important area.

This year, the [2012 CHEA Award](#) was presented to the Georgia Institute of Technology (GA), Rio Salado College (AZ) and the University of California, Merced (CA).

CHEA also launched [Effective Institutional Practice in Student Learning Outcomes: CHEA Award Recipients](#), an online publication with information on each of the 25 institutions and programs that have received the *CHEA Award* since it was established in 2005.

Keeping Members and the Public Informed

As “Accreditation Central” – a repository of national-level information about accreditation practice, policy and politics – CHEA serves as an unsurpassed resource of information on accreditation for member institutions, accrediting organizations, higher education associations and the public.

The [CHEA Website](#) provides a wealth of descriptive and analytic information on higher education accreditation and quality assurance worldwide. CHEA’s [Federal Update](#) provides in-depth material on activities by the U.S. Congress and USDE, while [Inside Accreditation](#) offers thoughtful analysis by CHEA President Judith Eaton on issues related to accreditation.

In 2011-2012, CHEA issued publications including [Accreditation and Accountability: Looking Back and Looking Ahead](#) and [Quality Assurance in the Twenty-First Century and the Role of the Council for Higher Education Accreditation](#), designed to examine higher education accreditation and the challenges and opportunities ahead.

Since its launch in 2003, the [CHEA Database of Institutions and Programs Accredited by Recognized United States Accrediting Organizations](#) has served as an indispensable information resource, listing more than 8,200 degree-granting and non-degree-granting institutions and more than 20,400 programs (as of June 30, 2012). The *Database* is visited nearly a million times each year by students, parents, employers and others seeking information on the accredited status of institutions and programs throughout the country.

Looking Ahead

In the year ahead, CHEA will continue its leadership and advocacy for accreditation. CHEA will work to provide information and assistance to Congress, USDE and the states on accreditation-related issues. A particular focus for CHEA will be preparing for the reauthorization of the Higher Education Act, expected to begin in 2013 or thereafter.

With the conclusion of the *CHEA Initiative*, CHEA will focus on the implementation of an action plan to address key issues and provide progress on the two major goals of the *Initiative*: to enhance accountability in accreditation and to sustain a balance and distinction between accountability to the federal government and the academic work of accreditation.

The Committee on Recognition will continue its work as approximately 30 additional accrediting organizations seek initial CHEA recognition.

CHEA’s focus on quality assurance internationally is expanding with the launch of the CIQG in 2012-2013. The year’s activities will include the first CIQG Annual Meeting and members-only publications including the newsletter *Quality International*.

CHEA will continue to provide leadership and advocacy on the issues, challenges and opportunities facing higher education accreditation and quality assurance, in the United States and around the world.

INDEPENDENT AUDITOR'S REPORT

August 27, 2012

To the Board of Directors
Council for Higher Education Accreditation
Washington, DC

We have audited the accompanying statement of financial position of Council for Higher Education Accreditation (the Council) (a non-profit organization) as of June 30, 2012, and the related statement of activities and cash flows for the year then ended. These financial statements are the responsibility of management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of the Council as of June 30, 2011 were audited by other auditors whose report, dated August 24, 2011, expressed an unqualified opinion on these statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Council as of June 30, 2012, and the changes in its net assets and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

COUNCIL FOR HIGHER EDUCATION ACCREDITATION

NOTES TO FINANCIAL STATEMENTS

1 - Organization.

Council for Higher Education Accreditation (the Council) is a District of Columbia corporation. The Council is dedicated to serving students and their families, colleges and universities, sponsoring bodies, governments, and employers by promoting academic quality through formal recognition of higher education accrediting bodies and working to advance self-regulation through accreditation.

2 - Significant accounting policies.

A. Basis of accounting.

The Council prepares its financial statements on the accrual basis of accounting.

B. Accounts receivable.

Accounts receivable are stated at the amount management expects to collect from outstanding balances.

C. Property and equipment.

Property and equipment are recorded at cost. Furniture, equipment, computer equipment, and software greater than \$500 are capitalized and then depreciated using the straight-line method over the estimated service lives of the assets (5-7 years). Leasehold improvements greater than \$1,000 are capitalized and then amortized over the term of the lease or the estimated useful life of the improvement, whichever is shorter.

D. Trademark and copyright costs.

Costs relating to trademarks and copyrights are capitalized and amortized using the straight-line method over fifteen years. Accumulated amortization at June 30, 2012 and 2011 was \$5,392 and \$4,875, respectively. Management periodically reviews the trademark and copyright costs for potential impairment. As of June 30, 2012 and 2011, it has been determined that no impairment has occurred.

E. Deferred revenues.

Deferred revenues include membership dues and conference fees collected prior to year end for a future period. Conference revenues are recognized in the period the conference takes place. Membership dues are recognized as revenues in the applicable membership period, which is July 1 to June 30.

F. Restricted and unrestricted net assets.

The Council records contributions and donor-restricted support as unrestricted or temporarily restricted depending on the existence and or the nature of any donor restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

G. Use of estimates.

Preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from estimates.

COUNCIL FOR HIGHER EDUCATION ACCREDITATION

NOTES TO FINANCIAL STATEMENTS

2 - Significant accounting policies (continued).

H. Income tax status.

The Council is exempt from the payment of income taxes on its exempt activities under Section 501(c)(3) of the Internal Revenue Code. The Council is classified by the Internal Revenue Service as other than a private foundation.

I. Reclassifications.

Certain prior year amounts have been reclassified to conform with the current year's financial statement presentation.

3 - Cash and cash equivalents.

For financial statement purposes, the Council considers all U.S. government obligations and certificates of deposit to be cash equivalents. Cash and cash equivalents consisted of the following at June 30th:

	<u>2012</u>	<u>2011</u>
Demand deposits and money market	\$ 2,347,072	\$ 1,601,233
Certificates of deposits	<u>2,172,415</u>	<u>2,434,162</u>
Total	<u>\$ 4,519,487</u>	<u>\$ 4,035,395</u>

Total unrestricted net assets	<u>\$ 3,190,480</u>	<u>\$ 2,834,076</u>

Book Fund: The purpose is to staff and to fund the writing of a book on higher education accreditation. The Board of Directors approved a transfer of \$36,017 to the Book Fund in 2012. There were no amounts transferred in 2011. Interest income earned on specified bank accounts is added to the principal of this Fund. The Book Fund earned interest income of \$2,665 and \$3,843 during the years ended June 30, 2012 and 2011, respectively. No expenses were incurred from this Fund during the years ended June 30, 2012 and 2011.

6 - Temporarily restricted net assets.

Temporarily restricted net assets were released from restrictions by incurring expenses satisfying the purpose stipulated by the grantor during 2011. There were no temporarily restricted net assets for the year ending June 30, 2012.

7 - Fair value.

Fair value measurement is reported in one of the three levels which is determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

- Level 1 - inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.
- Level 2 - inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 - inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

9 - Concentration of credit risk.

The Council maintains its cash in bank deposit accounts, which at times may exceed federally insured limits. The Council has not experienced any such losses in the past and does not believe it is exposed to any significant financial risk on these cash balances.

The Council also invests funds in a professionally managed portfolio that contains various types of certificates of deposit and treasury bills. Such investments are exposed to various risks, such as fluctuations in market value and credit risk. Thus, it is at least reasonably possible that changes in these risks in the near term could materially affect investment balances and the amounts reported in the financial statements.

10 - Retirement plans.

The Council maintains a tax-deferred annuity plan qualified under Section 403(b) of the Internal Revenue Code. The Plan covers full-time employees of the Council. The Council contributes 10 percent of gross salaries for eligible employees to the Plan. Employees may make elective contributions to the Plan up to the maximum amount allowed by the Internal Revenue Code.

NOTES TO FINANCIAL STATEMENTS

10 - Retirement plans (continued).

In 2003, the Council established a Section 457(b) deferred compensation plan as part of the President's contract. In 2005, the deferred compensation plan was expanded to include a top hat group of employees, funded entirely by the employees. The assets and liabilities relating to the plans totaling \$228,861 as of June 30, 2012 and \$206,128 as of June 30, 2011 appear in the statements of financial position.

For the years ended June 30, 2012 and 2011, the Council contributed \$114,299 and \$139,537, respectively, on behalf of its employees to these plans.

11 - Operating lease.

The Council leases its office space under a non-cancelable operating lease agreement, which expires June 30, 2018. The lease agreement provides for a minimum annual base rent plus the lessee's prorated share of real estate taxes and building operating expenses. Future minimum payments under the lease are as follows:

Years Ending June 30th,

2013	\$ 115,360
2014	122,570
2015	129,780
2016	136,990
2017	136,990
Thereafter	136,990
Total	<u>\$ 778,680</u>

Occupancy costs consisted of the following for the year ended June 30th:

	<u>2012</u>	<u>2011</u>
Rent	\$ 121,187	\$ 123,255
Parking	2,198	2,219
Repairs & Maintenance	2,059	1,340
Storage	1,729	1,558
Totals	<u>\$ 127,173</u>	<u>\$ 128,372</u>

12 - Employment agreement.

The Council has an employment agreement with its President. The term of the agreement is April 29, 2003 through June 30, 2016, with a sabbatical leave from July 1, 2016 through June 30, 2017. During the sabbatical leave, the President will provide services to the Council.

NOTES TO FINANCIAL STATEMENTS

13 - Tax positions.

The Council is exempt under Section 501(c)(3) of the Internal Revenue Code of 1986. The Council has filed for and received income tax exemptions in the various jurisdiction where it is required to do so. The Council files Form 990 in the U.S. jurisdiction. With few exceptions, the Council is no longer subject to U.S. federal, state, and local income tax examinations by taxing authorities for years before 2008. Management of the Council believes it has no material uncertain tax positions, and accordingly, it will not recognize any unrecognized tax liabilities.

14 - Subsequent events.

In preparing these financial statements, the Council has evaluated events and transactions for potential recognition or disclosure through August 27, 2012, the date the financial statements were available to be issued.
