CHEA Recognition Information

History: Recognized by CHEA in April 2002

Most Recent Recognition Action

Date: CHEA Board of Directors Meeting, January 28, 2013

Decision: Recognition for up to 10 years

The CHEA Committee on Recognition and the Board of Directors reviewed the Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT). The review was based on the six CHEA recognition standards that require an accrediting organization to show that its accreditation process advances academic quality, demonstrates accountability, encourages self-scrutiny and planning, employs fair and appropriate procedures and demonstrates ongoing review of practice, and that it possesses sufficient resources to carry out its accreditation processes ([2010 CHEA Recognition Policy and Procedures](#), Paragraphs 12A-12F, pp. 5-8).

JRCNMT demonstrated that it meets these standards and that its accreditation process is consistent with the quality improvement and accountability expectations that CHEA has established.

Additional Determination: JRCNMT is required to provide a report on the use of “probationary accreditation” as this affects consistency in its review of programs (Paragraph 12(D)(2), [2010 CHEA Policy and Procedures](#)).

The CHEA recognition policy requires that an accrediting organization undergo a recognition review at least every 10 years and submit two interim reports.
